HUNTSHAM COURT

Curated

At Huntsham Court, we've always believed that your celebration should be as individual as you are. Over the years, our house has been a blank canvas for clients to shape their event entirely their own way - no set formulas, just the freedom to create something truly personal.

With that same spirit in mind, we're excited to introduce Huntsham Court: Curated — a thoughtfully designed collection of celebration partner packages, created to support you and complement our dry hire options, all while keeping freedom firmly at its heart

To help make the planning journey feel a little lighter (especially for those with busy lives or planning from afar), Curated includes a trio of beautifully crafted partner packages: Coco, Elby, and Myrtle. Each one offers a different level of support and guidance, so whether you're just looking for a little help along the way or would love a more hands-on experience, there's something to suit your style and pace.

Built around our trusted network of handpicked suppliers—each one tried, tested, and genuinely loved by our team—these packages cover the key essentials such as food, wine, flowers, music, and coordination. While the logistics are taken care of, you'll still have the freedom to personalise your menu, choose your floral style, and shape the music to suit your taste. It's a carefully supported experience that allows you to make the day truly your own.

But rest assured: these packages aren't here to replace choice. They're here to enhance it. They offer clarity, confidence, and ease, while always keeping space for your personal flourishes. Whether you build your day completely from scratch or use a package as a starting point, the heart of the celebration will always be yours—with all the warmth, character, and individuality that makes it unmistakably you.

   - Individual elements cannot be mixed and matched between packages.
   - Participation in the curated package is entirely optional and is offered as a support service—Huntsham Court does not provide in-house suppliers.
2. Supplier Relationships
